ARTICLE II – ARCHITECTURAL GUIDELINES

Section 2.1 – Contractor’s License.

No Shareholder shall hire any unlicensed individual to perform repairs, alterations and/or other such work in or to the Shareholder’s Unit which will cost more than five hundred dollars (\$500.00). All repairs, alterations and/or other such work that will cost more than five hundred dollars (\$500.00) must be completed by a contractor licensed by the State of California and carrying the proper insurance, as required by the Board.

Section 2.2 – GRF Permit for Building Alterations/Additions.

In order to conduct any construction for the alterations and/or additions in the Shareholder’s Unit within the Mutual buildings, the Shareholder must submit an application for issuance of a building permit to the Physical Property Department and obtain a GRF Permit for the alterations and/or additions. The Shareholder must provide the Physical Property Department with a written, signed proposal and contract between the Shareholder and the contractor performing the work, which describes the work to be done by the contractor, the fees to be paid, and the commencement and completion dates of the work. Such contract must be in the form of the

appropriate Standard Form Contract provided by GRF and must be properly completed and signed by the Shareholder and contractor proposing to do the work.

The Standard Form Contract will contain a per day penalty for every calendar day that exceeds the completion date set forth in the Contract. Said penalty to be paid by the Contractor to the Shareholder. The Mutual Board, or its designee, may make an exception to the completion date and award an extension to the contractor without penalty due to unforeseen delays or problems.

Mutual requires the signature of the Mutual President on any building permit, building plans, and change orders issued for Unit remodeling and approved by GRF.

No Shareholder shall make any structural alterations in the Unit or Mutual premises, or in the water, electrical conduits, plumbing or other fixtures connected therewith, or remove any additions, improvements or fixtures from the Unit or Mutual premises, without the prior written consent of the Mutual and GRF.

Section 2.3 – Mutual Not Responsible for Damage.

The Mutual is not responsible to any Shareholder, or any successor Shareholder, for any damage to any Unit, regardless of date of installation or cause of damage or failure.

Section 2.4 – Installation of Showers/Bathtubs.

Shareholders may install a bathtub within the Shareholder’s Unit at the Shareholder’s own expense, so long as the bathtub meets the requirements set forth in this section. The bathtub must have a minimum inside width of nineteen (19) inches. A Shareholder may install a shower door (piano hinge) within the Shareholder’s Unit, when shower cut-downs are performed in the Shareholder’s Unit, at the Shareholder’s own expense.

Section 2.5 – Skylights.

Subject to the approval requirements contained herein, a Shareholder may install a skylight over specified locations in the existing roof structure of the Shareholder’s Unit, at the expense of the Shareholder. The Shareholder and contractor must utilize the Standard Form Contract prepared by the Physical Property Department. The construction must conform to the plans and specifications approved by the GRF and Mutual Board. The Shareholder must obtain a building permit from the City of Seal Beach, California. The Shareholder must agree that title to the remodeling and addition shall vest in the Mutual.

At the time of installation or replacement of skylights or skylight domes, single-sided foam tape must be applied between the frame and skylight dome. Any Unit located on the bottom floor of a two-story building within the Mutual cannot install a skylight. All Shareholders must contact the GRF Building Inspector to determine whether a skylight can be installed and the appropriate size, location and position for the installation of a skylight will be in the discretion of the GRF Building Inspector and the Board.

Section 2.6 – Microwave Ovens.

A Shareholder may install a special model microwave in the kitchen of the Shareholder's Unit, at the Shareholder's own expense, in place of the stove hood. The installed microwave will be a permanent installation to be maintained by the Shareholder and on resale of the Mutual Share related to the Unit, the new Shareholder will assume responsibility for the maintenance.

Section 2.7 – Ceiling Fans.

Ceiling fans may be installed in any location/ the kitchen provided that they meet the City of Seal Beach's specifications of a six (6) feet, eight (8) inches clearance from blades to floor. Ceiling fans are permitted in any location in a Unit provided ceiling heat in said room has been disabled and an approved alternate heat source has been installed and is operational.

Section 2.8 – Notification of Remodeling.

The Physical Property Department is instructed to notify the Qualifying Residents of all adjacent Units that share common entryways of the intent and scope of all proposed remodeling work. Any adjacent Qualifying Resident who is unable to be notified in person will have a letter mailed to them indicating the intent and scope of remodeling work to be performed. A record of all notifications must be maintained in the Physical Property Department.

Section 2.9 – Washers and Dryers in Unit.

Any washer and dryer in a Shareholder's Unit, of any make or model, whether side by side or stackable, shall be cleaned every two (2) years, so that all dryer vent areas are thoroughly cleaned and free of lint for clear passage of air flow from machine to roof top areas. A sticker with the date of cleaning must be affixed to the cleanout cover every time a cleaning is performed by Service Maintenance or an outside vendor.

In addition, all washing machine hoses and fittings must be checked every two (2) years for any leakage or hardening and/or cracking of the hoses. Moving the washer/dryer is not a requirement. If any of these conditions are found, the hoses are to be replaced with a follow-up by the GRF Building Inspector to verify completion. In all closes of escrow and changes of stock, all hoses must be changed prior to closing. The maintenance fee for this work shall be borne by the Shareholder. Further, during the fire inspections conducted every year, the GRF Building Inspector will compile a list of all units containing a washer and dryer.

New washers and dryer installations shall be submitted to the Physical Property Department with a plan describing the proposed connection to the sewer. All washers shall be installed with a battery powered water alarm behind the washing machine unit at the floor. Only braided metal supply hoses are allowed for the appliance. Dryer vents must go to the roof and have a clean out accessible within the Unit. All venting must be galvanized pipe with a short flex line used for the connection to the appliance. This ensures that the appliance may be pulled out and serviced without breaking the vent seal. The contractor may cut a hole for the vent from within the attic but may not have access to the roof of the Mutual building. The contractor must then contact the Mutual roofer to have it flashed with the approved damper cap. An insulation inspection

must occur to verify the presence of the soundproofing before the GRF Building Inspector will sign off on the project. The Shareholder and/or Qualifying Resident assumes full responsibility for any damage incurred as a result of the installation and/or use of a personal washer and/or dryer in their Unit.

Section 2.10 – Walk-In Therapeutic/Jacuzzi-Type Bathtubs.

A Shareholder may install a walk-in therapeutic bathtub or Jacuzzi and the related equipment/appurtenances, at the Shareholder's expense, within the Shareholder's 's Unit. The Shareholder shall assume financial responsibility in case the licensed installation company fails to comply with all provisions of the permit and all GRF and Mutual Rules and Regulations and agrees to return the Mutual property to its original condition or satisfactorily complete the installation upon demand by the Mutual.

The Mutual has the authority and authorization to remove the bathtub/Jacuzzi and related equipment/appurtenances and return the shower/tub area to its original condition at the Shareholder's expense if the installation does not comply with the provisions of this Section.

Water tie-ins shall be in the attic with ball valve shut offs; (4) A twenty-four (24) inches x twenty-four (24) inches attic access shall be provided in the bathroom for access to the shut off valves. The attic access cover shall be a combination of plywood laminated to a 5/8-inch type X drywall with the drywall facing the attic side; (5) The bathtub/Jacuzzi faucets shall have quarter turn shut offs that are accessible. The discharge of water shall be by gravity drain. A pump may only be used if the discharge rate does not exceed seven (7) gpm. Air injection jets may only be installed if they do not exceed a 44-decibel sound level. If they are an integral part of the bathtub/Jacuzzi, they must be disabled if they do not meet this sound level; (6) A non-standard 50-gallon water heater shall be installed with a re-circulating pump for the bathtub/Jacuzzi unless an alternate source for maintaining adequate hot water temperature at the bathtub/Jacuzzi is provided such as a tank-less booster water heater at the bathtub/Jacuzzi. The installation and maintenance shall be at Shareholder's expense; and (7) The main electrical panel must be upgraded to a 125-amp square D electrical panel with a 100-amp main breaker, if necessary, to provide sufficient circuit breakers. A sub-panel is not permitted.

Section 2.11 – Pre-Demolition.

The Shareholder's Contractor shall notify all surrounding units four (4) days prior to demolition of any kind. Contractor may petition the GRF Building Inspector to designate one (1) parking space to be coned off overnight Monday through Thursday, only during the initial phases of construction. The Mutual reserves the right to revoke any such designated parking space at any time.

Contractors shall block off their site with an approved orange netting at all times until final inspection occurs. They may use the grass areas in front of the unit during the day when marked off by the orange netting. All work tools must be removed from the grass area overnight and on weekends. The Mutual is not responsible for any damage, loss and/or theft of the contractor's tools.

Section 2.12 – Demolition.

The contractor must, at all times, have an approved, fully charged and visible fire extinguisher on-site. Demolition must be tarped off so that no dust can enter the common attic space or affect neighboring units. If possible, the contractor is to lightly spray the demo area to keep dust down. Contractors may not use Mutual trash dumpsters to dispose of material. All trash must be hauled off site daily. The contractor must ensure that the work area is visibly blocked off from any access. The Shareholder and contractor will be responsible for any damage or injury caused to any Shareholder, Qualifying Resident, guest or invitee who is injured due to the contractor's failure to safely secure the work area.

Section 2.13 – Concrete.

Any new concrete work being done at a Unit must include a 12-inch concrete apron along the front of the garden. With the apron, the hose bib line will need to be changed to copper type L with an approved hose bib. The copper line must pass through the concrete with a sleeve of ABS larger than the copper pipe. All new concrete defined as foundations, patios, aprons, and walkways shall be doveled into existing slabs a minimum of 24-inch on center with a #4 rebar and at least a 6-inch embedment.

Section 2.14 – Framing.

At framing inspection, the contractor shall treat the exposed framing for termite resistance with a product such as Tim-bor. Tim-bor must be applied by brush or spray as follows: two (2) applications of a ten percent (10%) solution when drier than normal; one application of fifteen percent (15%) solution when normal moisture.

When a Unit is remodeled, the architect, engineer, and/or contractor shall design and construct all the ceiling systems in such a way that allows for a minimum of 1-inch unobstructed flow of air from the eave vents up to the ridge vent. No framing material or insulation shall obstruct this air flow. If the insulation is going to close this 1-inch space, then a plastic baffle shall be installed to maintain it. No wood trim or coverings will be allowed on the exterior. Only termite resistant products shall be allowed on the exterior finish. Cement fiber trim and hard panel siding are standard. However, composites may be reviewed by the Mutual Board for approval. The only wood to remain for an exterior remodel is the original roof overhang that includes vent blocks, rafters, fascia, and plywood. If these are damaged or repaired by the contractor, the contractor shall replace wood to match existing and paint to match. Wood must be primed and painted with the approved paint. The Mutual will maintain the maintenance responsibility for the exterior wood members upon completion and approval of the work.

Section 2.15 – Drywall.

All drywall at common walls, ceilings, skylight shafts shall be type X 5/8.

Section 2.16 – Plumbing.

The Shareholder shall ensure that if any work is to be done on exposed original plumbing, (water/sewer) that the plumbing shall be changed to either copper type L with sweat joints or ABS with no hub connections. Full remodels shall have a brass ball valve main shut off installed for the cold water entering the unit. From this location, all cold-water systems shall be in copper type L and be directed to the kitchen and bathrooms.

If localized remodels occur for the kitchen or bath, a valve shall be used for the cold water servicing these locations. All valves shall be easily accessible. The shut off valve for the hot water shall be at the cold-water supply to the water heater and easily accessible through a panel. The water heater shall be easily accessible for service and have a drip pan and water alarm installed by the contractor for any plumbing remodel. Only metal braided supply lines with one fourth (¼) metal angle stops are allowed for all plumbing fixtures. Toilet supply lines shall have metal nuts.

Section 2.17 – Electrical.

If a new circuit is required and space cannot be found within the existing panel, then a new panel will be necessary and shall only be squared Q0124L125A 24 spaces/24 currents with 100-amp main shut off. No sub panels when remodeling. All electrical boxes in the common walls shall be metal, not plastic. All remodels shall require high efficiency lighting such as LED, Gu24, or fluorescent tube. No screw in bulbs will be permitted.

Section 2.18 – Draftstopping.

Draftstopping will be required within the attic space along the sides of the unit, but not at the attic corridor under the ridge. Draftstopping may be a minimum of 5/8 OSB, plywood, or type X drywall from the top plate and extend to the underside of the roof sheeting. Draftstopping need only be installed in such a manner as to remain in place with minimal framing/backing required.

Section 2.19 – Insulation/Sound Proofing/Fireproofing.

All common walls shall be insulated for soundproofing and fireproofing. The common walls, when open in a remodel, shall be filled with a mineral wool such as Roxul Safe 'n Sound. Any penetrations for plumbing or electrical shall be sealed with approved fireproof sealant or spray foam. All electrical boxes in common walls shall be metal.

Prior to the installation of ceramic tile flooring, the Shareholder must obtain a permit from the GRF Physical Property Department. Carpeting and/or vinyl is the preferred the floor covering for the remainder of the Unit.

Section 2.21 – Dishwashers.

Shareholders may have any make or model built-in dishwasher installed in their Units at their own expense by a licensed contractor approved by the GRF Physical Property Department after securing the necessary permits from the GRF Physical Property Department prior to beginning work. The dishwasher requires a separate electrical circuit. The Shareholder assumes full responsibility for any damage incurred as a result of a dishwasher, whether built-in or portable in their unit.

Section 2.22 – Appliances.

A Qualifying Resident that has lived in his/her Unit for six (6) months or less, and received new appliances from the Mutual, may not remove the appliances in a remodel unless they refund the Mutual the full value of the appliances at the time of installation.

The Qualifying Resident or contractor must notify a director on the Mutual Board or the GRF Building Inspector to confirm what options are authorized. This notification must be made at least seven (7) days prior to the removal of the appliances. Mutual appliances are defined as: stoves, ovens, hoods, refrigerators, garbage disposals, water heaters, sinks, faucets, lighting fixtures, and ceiling heater/vent/light units.

All expansions or permanent fixtures and appliances to the unit become Mutual property when attached to the building. The Mutual and/or GRF will not be responsible for any reimbursement of any expansions or fixtures which become Mutual property.

Section 2.23 – Exterior Coverings and Blinds.

Plans for all exterior coverings and/or blinds on windows, doors, doorways, and entry or exit areas must be submitted to and approved by the Mutual Board and meet the standards and approval of the Physical Property Department prior to installation. Exterior coverings, including but not limited to solar blinds, mini blinds, vertical blinds, or roll- up bamboo blinds, are permitted only within the inside of each Qualifying Resident's patio or Unit, and may not be attached to the Mutual's building outside of the patio, or interior window header when the unit has been extended. The Mutual prohibits exterior coverings to be attached to the building outside of the patio header or attached to rafter tails or building fascia.

Section 2.24 – Gutters.

Full lengths of gutter without patches must be installed by the contractor. A contractor must contact the Mutual-approved roofer and have the roofer install full lengths of gutter without patches on new roofs that have gutters with one (1) seam at the middle of the building. The install will be at least one half (½) the entire length of the building without patches. Downspouts may be reused but will only be located as per the GRF Building Inspector’s direction.

Section 2.25 – Equipment Standards.

The Mutual has approved a revised standardization of appliances list. This list may be updated by the Purchasing Department from time to time as manufacturers improve, modify or replace models, thereby altering the current applicable model numbers. The revised list will be published by the GRF Purchasing Department annually. Qualifying Residents and/or Shareholders can obtain a copy of such list on the Leisure World Seal Beach website. A copy of such list is also periodically published in the LW Weekly.

Section 2.26 – Smoke Detectors.

When all or any remodel work is done to a Unit, ALL smoke detectors/alarms must be replaced with a Kidde i9010 Tamperproof 10-Year Sealed Lithium Battery-Operated Smoke Alarm and/or Kidde 12010S Worry-Free Hardwired Interconnected Smoke Alarm Sealed Lithium Battery Backup, where applicable, or an equal and equivalent device approved by the Mutual Board. The Mutual is only responsible for the smoke detectors located in the Unit’s main living room and/or kitchen area. Any additional smoke detectors installed within the Unit are the responsibility of the Qualifying Resident and/or Shareholder.

Section 2.27 – Performance Bonds for Construction Work over Ten Thousand Dollars.

Permits for any construction work performed in the Mutual valued at more than ten thousand dollars (\$10,000.00) shall require a Performance Bond. The bond shall provide sufficient funds in the event the work is not completed on time, in accordance to approved plans, and/or to the satisfaction of the Mutual, for any reason. Exceptions to this bond requirement are as follows: (1) The contractor is listed on the Physical Property list of approved contractors; and (2) The contractor has completed more than one hundred thousand dollars (\$100,000.00) per year in contracts in Leisure World for the last three (3) years.

The Shareholder agrees that title to the remodeling and addition shall vest in the Mutual.

Section 2.29 – Roof Leaks.

When a roof leak occurs in a Mutual building, and if a roofing contractor fails to effect warranty repairs within fifteen (15) working days from notification by the Physical Property Department, the Service Maintenance Department will make such repairs.

A Qualifying Resident should report any known or suspected roof leaks to the Mutual Board and/or the Service Maintenance Department. The leak will then be recorded in the Roof Leaks Log by the Physical Property Department. The Physical Property Department Secretary will report the leak to the appropriate GRF Building Inspector, and the GRF Building Inspector will initiate a Roof Leak Report. The GRF Building Inspector will determine whether the leak is under warranty and, if not, whether it is the responsibility of the Mutual or the Qualifying Resident to repair.

If the leak is under warranty, the GRF Building Inspector will provide written notice to the contractor holding the warranty. The contractor is given a period of fifteen (15) working days to repair the leak.

If the leak is not repaired within fifteen (15) working days by the contractor holding the warranty, the Inspector must notify the Service Maintenance Department to perform the work. Upon completion, the Service Maintenance Department will prepare a monthly status report on assigned roofs and will issue a copy to the Mutual and Physical Property Department and forward a service repair order to accounting to invoice the contractor. The Inspector will notify the Physical Property Department Secretary to record the job as complete in the Roof Leaks Log.

If the leak is not under warranty and is the responsibility of the Mutual, the GRF Building Inspector must report the leak to the Service Maintenance Department. The Service Maintenance Department will perform the work and prepare a monthly status report on assigned roofs and will issue a copy to the Mutual and Physical Property Department. The Service Maintenance Department will generate a service repair order and invoice. The GRF Building Inspector will notify the Physical Property Department Secretary to record the job as complete in the Roof Leaks Log.

Section 2.30 – Roof and Attic Access.

No person shall access the roof or attic areas of any building in the Mutual without the express permission and approval of the GRF Physical Property Department. The only person within this Physical Property Department who may give such permission or approval is the GRF Building Inspector or the GRF Physical Property Facilities Director, or their specific and assigned designees. This prohibition includes: (1) Any Shareholder, even if such Shareholder is an occupant of the building whose roof or attic is being accessed; (2) Any other person related to, or associated with, any other resident or Shareholder such as a caregiver, a relative, or guest, and including any director sitting on the Mutual Board, including any two (2) or more such directors in concert; (3) Any contractor of any sort for whom access had been requested or granted for an existing contract, any prior contract, or for the purpose of bidding on a future contract; and (4) Any public official such as an inspector or other legal authority without proper, documented permission.

Section 2.31 – Filled Concrete Block and Footings.

A Shareholder may apply to GRF to obtain a permit for the use of the “filled type” decorative blocks in enclosing patios. A Shareholder must acknowledge that sufficient footings will be placed under the edge of the slab where said blocks are to be installed, in order to adequately provide for the added weight on the slab.

Section 2.32 – Liners for Decorative Block Walls.

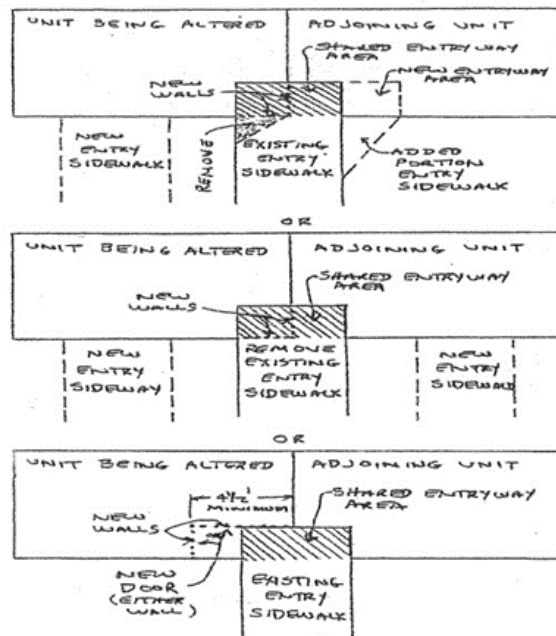

A Shareholder is not permitted to use organic materials, such as plywood, to line decorative block walls.

Section 2.33 – Bay Windows.

All bay windows placed in first-floor units must be to grade and stucco only. All bay windows placed in second-floor units must be at forty-five (45) degree angle back to the original building and stucco only.

Section 2.34 – Common Entry Walkways.

When two (2) units are side-by-side and share a common entrance walkway and one (1) Shareholder wants to relocate their entry walkway, that Shareholder must obtain permission, in writing, from the Shareholder of the other affected adjacent unit. The Board will consider each application to relocate a common entry walkway on a case-by-case basis. The entrance for the adjacent unit shall be relocated at the sole expense of the Shareholder whose unit is being altered to provide the minimum/maximum five (5) feet . The total width will include 3-inch buffers on each side if decorative stone is being used, but must still be within the five (5) feet maximum width.

Section 2.35 – HVAC.

A Qualifying Resident may apply to install an air conditioning system within the Qualifying Resident's Unit, at the Qualifying Resident's expense. A Qualifying Resident must apply to the Physical Property Department for a permit to install the air conditioning system through the lower windows. A Qualifying Resident's applying to for approval to install an air conditioning system must comply with the following requirements.

2.35.1 All heat pump systems must: (1) be ductless; (2) meet requirements for energy usage to qualify for a rebate when Southern California Edison rebates are available; (3) meet requirements for acceptable sound levels; and (4) not disturb the present ceiling heat system so it can be reactivated, if required.

2.35.2 A duct heating and cooling system is part of a complete Unit remodel if: (1) Installation of HVAC (Heating, Ventilating and Air Conditioning) units to be installed with the outside Unit located inside the drip line and as close to the center of the Unit as practical, or near the deco or stucco at the end of the Unit near the storage area. Corner Units may select which side they want. End Units may choose to install them on the side. The exposed lines should be attached to the deco, stucco or wooden post, the location to be approved by the Mutual Board. Repair and maintenance to be the responsibility of the Qualifying Resident.; (2) The compressor is to be installed on a 4-inch cement slab when remodeling outside walls; (3) ground must be tamped (compressed) firmly so that the unit will not shift.

2.35.3 The concrete pad for split duct systems (heating/air) shall be a total of six and a half (6½) inches thick: either three (3) inches below grade and three and a half (3½) inches above grade or three and a half (3½) inches level with the grade; and the fiberglass pad supplied by the manufacturer, anchored to the concrete pad, shall be used in a proper fashion.

2.35.4 Exposed areas. All exposed refrigerant lines on the exterior walls or ceiling of the building shall be covered by a sheet metal cover. All exposed lines (beginning and end) must be covered with either sheet metal and/or expandable foam so these areas are flame proof, insect and vermin proof, and rot resistant.

2.35.5 The compressor is not to exceed fifty-four (54) decibels and the air handler unit in the attic cannot exceed 44-decibel sound level, per City of Seal Beach Building Code. If the noise level exceeds either of these decibel sound levels, the Qualifying Resident is responsible to have the HVAC unit or units repaired immediately. If the Qualifying Resident does not have the HVAC unit or units repaired, the Qualifying Resident may not use his/her HVAC unit(s). If the Mutual has to repair the HVAC unit, due to the failure of the Qualifying Resident to repair the unit, the Qualifying Resident will be billed for all expenses incurred with such repair, including without limitation, attorneys' fees. If the heating part does not work, the Qualifying Resident is responsible for providing alternate heat, if a Qualifying Resident of that Unit has had the Mutual ceiling heat made inoperable.

2.35.6 Attic access. There must be inside locking attic access from the inside of the Qualifying Resident's Unit or from the outside (for end Units only), so the HVAC unit may be serviced and maintained (as it is the responsibility of the Qualifying Resident to maintain it). Condensate line in the attic must be rodent-proof. If the attic access has to be cut in, the attic access cover shall be a combination of plywood laminated to a 5/8-inch type X drywall; the drywall facing the attic side.

2.35.7 Exterior heat pumps (permit required) shall be placed in front of a Unit, unless the Mutual Board grants an exception. All new installations of air conditioners and heat pumps shall be mounted on a 4-inch concrete slab and have a 6-inch wide, 6-inch deep footing installed under the front side of the slab.

2.35.8 On the occasion of change of ownership and with a charge against escrow, existing heat pumps not currently on a concrete base with a footing as described above shall be corrected by installing a manufactured fiberglass base over a concrete footing which is six (6) inches wide and six (6) inches deep across the full front edge of the fiberglass base. Central air conditioning and forced air units still require an 8-inch concrete footing.

2.35.9 Permits are required for wall heaters. In all construction work where wall heaters replace the original heating source, metal conduit or armored cable shall be used for the last six (6) feet of line running from the breaker box to the wall heater(s).

Section 2.36 – Unsanitary Premises and Fire Loading Conditions.

Chapter 10 of the 1997 Uniform Housing Code, Section 1001.11, defines in part, hazardous or unsanitary premises as the accumulation of weeds, vegetation, junk, offal (decaying meat products), dead organic matter, debris, garbage, rat harborages, stagnant water, combustible materials, similar materials or conditions on the premises of the unit, or storage inside of the oven or on the stovetop or inside a microwave oven, which may constitute fire, health, or safety issues.

For purposes of this Section 2.36, unsanitary or rodent and insect inviting conditions or fire-loading conditions are described as the excessive acquisition and collection of large amounts of objects. Such collections of objects may include, but are not limited to: stacked paper goods, newspapers, books, magazines, mail, trash, stored cardboard boxes, plastic trash bags, food stuffs, cleaning aids, clothing and collectables, pet waste or unclean pet cages, and a lack of ingress and egress at windows and doors.

Qualifying Resident's shall not create an unsanitary or rodent and insect inviting condition or fire-loading conditions, as defined in this Section 2.39 or in Section 1001.11 of the 1997 Uniform Housing Code referenced above. Further, a Qualifying Resident shall not store within their Unit, or on their patio, any large amounts of incendiary items such as grease, oil, gasoline, paint or paint thinner, or any other liquids or substances noted to be flammable, or any large amount of hobby materials. Working on hobbies in Unit or patio will be permitted by the Board on a case-by-case basis, considering the health, safety, welfare, and aesthetics of all residents affected.

Storage of construction materials, including but not limited to, stacked wood, siding, metal pieces, welding tools, or any items in support of conducting or practicing a business upon the premises, is also prohibited.

Section 2.37 – Unit Fire Inspections and Special Unit Inspections.

Each Unit will be inspected at the regular annual or bi-annual Mutual fire/safety inspection conducted by the Physical Property Department or any special inspection as ordered by the Mutual Board, with a duly posted 72-hour notification to the Qualifying Resident. Any infractions will be indicated, and the Qualifying Resident will be informed by mail to cure the infraction within thirty-two (32) days of the date of the letter. A follow-up inspection of the premises will be conducted to assure compliance.

Section 2.38 – Service Maintenance/Physical Property Calls.

All Qualifying Residents and/or Shareholders should contact the Board prior to contacting Service Maintenance and/or the GRF Physical Property Department. The Qualifying Resident and/or Shareholder should never contact Service Maintenance and/or the GRF Physical Property Department directly, except to make appointments for which he/she will be financially responsible. Any request made by the Qualifying Resident and/or Shareholder to either Service Maintenance and/or the GRF Physical Property Department will be billed directly to such Qualifying Resident and/or Shareholder.

Section 2.39 – Front Doors.

Unless the front door of a Unit is standard and access to the Unit can be gained by the use of a master key, the Qualifying Resident/Shareholder must purchase from GRF Purchasing and install a lockbox containing a key to the Unit in a conspicuous location adjacent to the front door. If the Qualifying Resident/Shareholder has installed any additional locks or deadbolts on their Unit in addition to the standard doorknob, the Qualifying Resident/Shareholder must purchase from GRF Purchasing and install a lockbox containing the keys to any such additional locks or deadbolts. It is the responsibility of each Qualifying Resident/Shareholder to ensure that the Mutual has access to the Unit in the event of an emergency.

Section 2.40 – Satellite Dish Installation.

Any Qualifying Resident and/or Shareholder who wishes to install a satellite dish must adhere to the following: (1) A permit to install the satellite dish must be obtained from the GRF Physical Property Department, prior to having a satellite dish installed; (2) Ensure that the licensed company complies with all GRF Physical Property Department and Mutual Rules and Policies; (3) Shareholder will be responsible for the cost of any damage which may occur to the building or roof during installation, or during the operation of the satellite dish; (4) The satellite dish must be maintained in good condition, both aesthetically and functionally, by the Shareholder. If it is not maintained in good condition by the Shareholder, the satellite dish may be removed by the Mutual at the Shareholder's expense; (5) The satellite dish must be removed upon the sale or transfer of unit, at the Shareholder's expense; (6) Installation and wiring is to be performed per the Mutual's installation requirements and conditions for a satellite dish; (7) Maximum size of

satellite dish is not to exceed thirty-six (36) inches; (8) The southern view must not be obstructed at any time. There can be no obstructions, such as trees or structures, between the dish and the satellite. Seasonal foliage, future growth of existing trees, possible remodeling or additions to your unit or adjacent units and changes in landscaping must be considered when installing the satellite dish; (9) All satellite dishes must be stable and secure; (10) The installation of the satellite dish shall be in accordance with the current National Electrical Code, installed by a licensed television company that meets all Foundation and Mutual insurance requirements; (11) Satellite dish cannot be installed directly on the roof mount, due to the required roof penetration; (12) Satellite dish can be installed on the roof vent mount. When mounting a satellite dish to a roof vent, the top of the satellite shall not be higher than four (4) feet above the top of the roof line. Most satellite companies have approved brackets for roof vent installation (see illustration below); (13) Cable routing shall not break through any roofing or framing – vent pipe flashing only; (14) All entry points into the Unit and any and all test holes must be sealed with approved sealant to prevent water seeping into the Units; (15) All fire wall penetrations shall be completed per the current Uniform Building Code Sections 709 and 710; (16) All openings made through a ceiling for penetrations such as cables, cable tracks, conduit, pipes or tubing shall be protected with approved through-penetration fire stops; (17) Vent mount installations require the cable and ground wire from the dish to follow the vent pipe into the attic area. Approved tar sealant must be applied where cable enters vent pipe flashing. A half-inch slit at the top of the roof jack is allowed to feed the cable alongside of the vent pipe. Approved silicone sealant must be used around this area; (18) The satellite dish must be grounded, in compliance with all local electrical installation codes and the current National Electrical Code; and (19) Ground wire must be used to connect the satellite dish to a metal cold water pipe using a grounding clamp and following the guidelines.

The Mutual has the authority to remove the satellite dish at Shareholder's expense if a permit for installation of the satellite dish is not obtained from the GRF Physical Property Department.

Section 2.41 – Walkway Light Covers.

Qualifying Residents and/or Shareholders shall not wrap the walkway light poles, placed throughout the Mutual, in any way. All decorations, handmade or manufactured, including without limitation, plastic pumpkin heads and Christmas snowman walk lights, that cover the light globe will be removed and discarded by the Mutual.

ARTICLE III – PATIOS/GOLF CART PADS

Section 3.1 – Patios.

If the Mutual’s Bylaws provide for it, a Shareholder may submit an application to construct a patio. The Shareholder’s plans and specifications must be in accordance with the Mutual’s requirements as set forth in these Rules and Regulations. Pursuant to Section 2.1 of these Rules, all construction work related to the construction of patios must be done by a contractor licensed and insured in the State of California.

3.1.1 Use and Maintenance. The maintenance, repair and replacement of any components of the patio will be the responsibility of the Shareholder.

3.1.2 Emergency Egress – Windows and Walkways. All patio window spaces, both inside and outside, must be kept clear for emergency exit and entrance. A clear path of at least four (4) feet must be maintained from the entrance of the patio to the entry door of the unit. Walkway must have a clean, unobstructed pathway, free of potted plants or other items.

3.1.3 Emergency Egress – Doors. No patio addition may have a door that locks. Only doors with direct entry into the Unit may have locks (i.e., front door or sliding glass door leading directly into the Unit from the patio). A door outside in the patio without direct access into the Unit is not considered an entry door. To clarify, there can be no door locked before arriving to the front door of the Unit. Any lock on a patio door must be removed or the Mutual will remove it at the Shareholder’s expense. Any object which contributes to uncleanliness or impeded passage for emergency personnel and equipment, and/or which may lead to unhealthy or dangerous conditions to Shareholders, must be corrected by the Shareholder. If such items are not removed, the Mutual will do so at the Shareholder’s expense.

3.1.4 Inspection. Patios will be periodically inspected by a GRF Building Inspector assigned by the GRF Physical Property Department.

3.1.5 Storage – Open Patios. After the initial 30-day move-in period, the following items may not be stored or placed on open patios: (1) Any type of food, including birdseed, dog or cat food except in airtight containers; Do not leave pet dishes with food on the patio; (2) Cardboard boxes; (3) Charcoal or highly flammable items, old newspapers, magazines, etc. (unless stored in approved containers). Gasoline-operated equipment or gas cans, flammable chemicals; (4) Laundry hung for airing or drying; Clothing or other items may not be hung on shareholders’ patios; (5) Non-working refrigerators or freezers; (6) On un-gated patios: Unattended pets or pets in permanent outdoor kennels or caged (including birds); (7) Spas or hot tubs, indoor upholstered furniture.

3.1.6 Patio Décor. Screens, panels, or drapes to block the sun must be of outdoor fire-retardant fabric and must be maintained. Patio décor must be in good taste, and obscene or offensive objects can be prohibited in the discretion of the Mutual Board.

3.1.7 Prohibited Activities. Any workshop causing noise, odor, unsightliness, and/or unhealthy conditions is prohibited within the Mutual. Be guided by the “occasional hobby-oriented” activity rather than an ongoing business or any activity considered to be a nuisance to neighbors. Contact the Mutual Board by sending a letter to the Secretary for further information and guidance. Converting an open patio into a storeroom is prohibited.

3.1.8 Patio Size. Mutual building permits are required for any alteration to patios. A patio may not be increased by expanding outwards into the garden/common area. Patios may be reduced in size by: (1) Constructing patio closets, which requires a GRF building permit; (2) Adding pre-assembled cabinets/sheds; or (3) Expanding the interior rooms of the unit outward into the patio space.

3.1.9 Patio Floor. Outdoor carpeting is permitted. Any permanent resurfacing of the patio floor requires a GRF building permit. Flooring installed without a permit may be removed by the Mutual at the Shareholder’s expense.

3.1.10 Enclosed Patios. A permit from the Physical Property Department is required for any construction to a patio. An enclosed patio may not function as a bedroom, kitchen, or storage closet. Any item not appropriate to a patio will be removed by the Shareholder or by the Mutual at the Shareholder's expense.

3.1.11 Enclosed Patios Acceptable Items. Acceptable items on enclosed patios include: (1) Refrigerator or freezer in working condition plugged directly into wall socket only; or (2) A washer or a dryer or stacking washer and dryer installed inside a patio storage cabinet. A GRF building permit must be obtained for the installation of these appliances, and all codes relating to electrical and, if applicable, plumbing and ventilation must be adhered to.

Section 3.2 – Golf Cart Pads. Shareholders must obtain approval and follow established guidelines for the installation and use of any electric cart or scooter and any necessary pad used for parking and recharging of carts and scooters. Such pads shall not be considered a permanent change to the Unit but shall remain a "non-standard" change. Any parking or charging pad shall be removed upon the resale or transfer of the applicable share of stock at the seller's expense, unless the buyer wants the pad to remain and agrees to such in writing, including an agreement that the buyer will have a golf cart within thirty (30) days. The Shareholder constructing a golf cart pad must contact the Physical Property Department to obtain a permit which must be obtained prior to the start of any construction. Minimum width will be five (5) feet) and maximum width of any cart pad will be six (6) feet.

Materials allowed: concrete, decorative pavers and decorative stone. Decorative pavers and stone must have a 3-inch concrete buffer on each side incorporated into the maximum width of six (6) feet for the cart pad.

By obtaining a permit for the cart pad, the Mutual Board is giving the Shareholder a temporary easement for the exclusive use of a portion of the common area. A cart pad is for parking and charging of electric golf carts. The area cannot be utilized for any use other than charging and parking a golf cart or scooter. If there is no golf cart, the property is to be returned to a grassy area, at the expense of the shareholder. The cart pad may not be used as an outdoor patio. There will be no plants, furniture or decorations of any kind on the pad. The exception would be if the cart pad is an extension of the garden. If the plants on the cart pad fall within the garden area, they will be acceptable, as long as they do not interfere with any space required for any golf cart or scooter using the pad. Notices of violations will be given for any infraction. After three (3) violations, the temporary variance will be revoked. At the shareholder's expense, the cart pad will be removed and returned to common area.

Before obtaining the permit, the shareholder will sign a recordable agreement agreeing to all the terms and conditions required to obtain said permit.

All costs related to this installation shall be borne by the Shareholder, including any modifications to the existing sprinkler system which work must be performed by the Mutual's contracted landscaper or other Mutual-approved contractor prior to the construction of the pad.

ARTICLE IV – LANDSCAPE MAINTENANCE MANUAL

Section 4.1 – Purpose of Landscape Maintenance Manual.

This Article IV is included to enhance the enjoyment of the Mutual living style by setting and enforcing standards for Mutual landscaping. This Article IV outlines the shared responsibilities of the Mutual and its Shareholders. The Landscape Committee is entrusted with the management of landscaping including the responsibility for inspections and enforcement of this Article IV. If all Shareholders follow the policy as outlined below, the landscape areas will display what most Shareholders would consider an appealing appearance of the Mutual, a benefit for all as an attractive place to live and an enhancement of property values in the event of resale.

Section 4.2 – Resident Garden Areas.

The area extending up to sixty (60) inches from the exterior wall of the Unit is set aside for the Shareholder's garden. The sides of the corner Units shall have a 48-inch limit. At the time of sale or transfer of stock, the Mutual Board will review the area and decide whether those areas which have been extended beyond these limits will be returned to the maximum sixty (60) inches, or left as extended. Free-standing objects are permitted in the garden area only.

Section 4.3 – Trees within Garden Areas.

Trees may not be planted in garden areas, except in tubs, and they must be kept eighteen (18) inches below the eaves. Plants must be cut back so as not to extend over the garden line, in all cases. Removal of any offending growth will be done by the Mutual at the Shareholder's expense. Trees may not be cut down until a certified arborist provides a report to the Landscape Chair and Mutual Board, for approval, on those showing signs of stress, disease, or invasive roots, or which could possibly cause property damage. Older, larger trees should be checked on-site by an arborist yearly. When called for, second opinions must be obtained from an outside, independent California certified arborist. All arborist's reports advising the Mutual Board that the tree is diseased, or the roots are invasive to buildings and cannot be cut back without killing the tree must be in writing. Trees may not be cut down until a certified arborist provides a report to the Landscape Chair and Mutual Board and the removal is approved in writing by the Mutual.

Section 4.4 – Plants within Garden Areas.

Shareholders may plant greenery of their choice from the list of Mutual-approved plants within the Shareholder garden area. Plants with invasive root growth that could potentially damage the Mutual structures and walkways are prohibited. Vines are not permitted to climb on any structures. If a trellis is used, it must be free-standing and be kept eighteen (18) inches below the eaves and twelve (12) inches from the building. All plants must be trimmed back twelve (12) inches from building walls. Shrubs shall not block windows, electric meters, or neighbors' views. No saucers may be kept in the garden areas. Only pavers can be used in the garden areas.

Section 4.5 – Pest Control and Fertilization within Garden Areas.

Fertilization and plant pest control within the garden area are the responsibility of the Shareholder. Watering the garden area is also the responsibility of the Shareholder. At the

Shareholder's expense, sprinklers may be added within the garden area. Maintenance of sprinklers will be at the Shareholder's expense. All fertilization and plant pest control within the flower bed are the responsibility of Shareholders at their expense. Pesticide application requires careful attention to prevent endangerment to other shareholders and their pets, as well as to beneficial insects.

Section 4.6 – Potted Plants.

Potted plants are not permitted on entrance walkways; nor can they inhibit the 36-inch entry requirement. Further, potted plants are not permitted on top of, or hung from Padmount transformers, nor on telephone vaults or walk lights. Cement pavers must be under all pots containing trees or large plants.

Section 4.7 – Maintenance of Garden Areas.

After cleaning garden areas or raking leaves, Shareholders should place the leaves or debris in the proper trash bins. At the time of escrow or transfer of stock to a new Shareholder, the Mutual Inspector and the Mutual Board will signify any plants, shrubs or trees that need to be removed. The cost of such removal will be the expense of the seller or transferee of ownership. Planting will be in accordance with the current Mutual Rules and Regulations. If the new Shareholder wishes to do the planting, it will be at his/her expense. Shareholders may design a garden area with slight curves within sixty (60) inches to enhance their garden areas. First, Shareholders must submit a plan and drawing of the proposed garden area to the Mutual Board prior to work being performed. If approved, the plan and drawing will go into a file for that Unit and be grandfathered in, so that the garden area does not have to be returned to its original configuration if the Shareholder sells his or her share of stock. Shareholders are expected to maintain their flower bed areas to enhance the Mutual and be aesthetically appealing to the appearance of the Mutual. Flower bed areas must be planted or covered with appropriate ground cover. No purely dirt gardens are allowed. Decorative rocks used as ground cover must be minimum one inch in diameter size. If a Shareholder does not adhere to the requirements of this Article III of the Rules, the Mutual will advise the Shareholder, in writing, of the problem to be corrected and may take disciplinary action.

Section 4.8 – Flower Bed in Garden Area.

Every ground floor Shareholder is allowed the privilege of a flower bed area in front of his/her Unit. Existing flower beds range in width from twenty-four (24) inches to thirty-six (36) inches and cannot exceed sixty (60) inches in front; side gardens cannot exceed forty-eight (48) inches. Flower beds are cultivated, weeded, and trimmed by contracted landscapers every six (6) weeks. Shareholders who desire to do the work themselves may alert the landscapers by placing red flags within the flower bed. Flags are available from gardeners. Landscapers are instructed to remove weeds from all flower bed areas, including Baby's Tears, wild mint, ivies, and plants of the spiderwort family. These plants can spread onto the lawns or invading neighboring gardens.

Section 4.9 – Prohibited Uses of Garden Area.

Front and side gardens may not be used as storage areas. Items such as garden soil, empty pots, garden tools, potting tables, cabinets, scaffolding, shelving, bikes, kayaks and/or surf boards are prohibited in front and side gardens and may not block Unit windows.

Section 4.10 – Plants may not Touch any Structure.

In no instance are plants of any sort permitted to become entwined, lay upon, or in any manner touch a roof, an exposed beam, or any portion of a structure, including gutters, as these conditions invite termites, rats and mice. Any plant materials in the flowerbed whose roots are damaging the building structure, walkways, lawn area, or retaining wall must be removed at the expense of the Shareholder and the damages repaired at the Shareholder's expense. Plants not already trimmed to acceptable standards of one (1) foot/ twelve (12) inches from the building and decorative blocks, eighteen (18) inches from the eaves, will be cut back at Shareholder's expense.

Section 4.11 – Entrance Walkways.

Entrance walkways, from the sidewalk to the structure/porch, must be kept free always of potted plants and all other impediments, including electric carts. Nothing that will in any way impede the full use of the thirty-six (36) inches wide walkway and entry from the sidewalk to the entrance onto the porch is permitted to remain on the walkway. Plant materials must not extend outside the flower bed limits over scallop borders, walkways, turf areas, or into neighboring flower beds.

Section 4.12 – Stackable Gardens.

Shareholders are allowed to have "stackable gardens." However, the garden must have approved plants and must be kept twelve (12) inches from the building wall and may not go above the decorative fence or be twenty-four (24) inches high from the ground. Plants may not be stacked on the block walls.

Section 4.13 – Overgrown Flower Bed.

If a flower bed is deemed to be an eyesore by the Landscape Committee and provides hiding places for spiders and rodents, then the Shareholder will be asked, in writing, to clean it out. If the Shareholder does not clean out the "overgrown" flower bed and/or overabundance of potted plants, then the Mutual will do it. The Shareholder will not be reimbursed for any plants, pottery, containers or non-authorized "items" in the flower bed.

Section 4.14 – Approved Plants.

If a Shareholder has a question about a plant that does not appear on the non-approved list, as set forth on Exhibit "A" the Shareholder needs to contact the Landscape/Garden Director for clarification and to obtain written approval from the Director prior to planting. If planted without prior written approval, the Mutual will remove, at its discretion, the offending plant(s) at the Shareholder's expense. All vegetables and fruit may be grown in pots within the Shareholder's designated patio ONLY. Pots may not be placed on walkways, sidewalks, or anywhere that will impede emergency access. The notice shall further advise the Respondent of his or her right to attend the hearing, submit a statement of defense to the Mutual Board in advance of the hearing or present a statement of defense and supporting witnesses at the hearing. If the Respondent does not attend the hearing, the Respondent waives these rights.

C. The Mutual Board shall conduct the hearing in executive session (unless requested otherwise by the Respondent) and shall afford the Respondent a reasonable opportunity to be heard.

D. If the Shareholder is found to be in violation of the Governing Documents following the hearing, the Mutual Board may do any of the following, as noted in the hearing notice:

1. Impose a monetary fine against the Shareholder pursuant to the Fine Schedule.
2. Levy a special reimbursement assessment against the Shareholder pursuant to the Governing Documents.
3. Declare the Shareholder to be not in good standing as set forth in these Rules.

E. Any disciplinary action taken should be recorded in the minutes of the meeting at which the disciplinary action was taken by the Mutual Board. No action against the Respondent arising from the alleged violation may take effect before five (5) days after the hearing.

F. The Mutual Board shall provide the Shareholder with written notice of the outcome of the hearing and any disciplinary action taken by the Mutual Board within ten (10) days after the hearing. In the case of a continuing violation, the notice of hearing decision may include a notice of a continuing fine, if authorized by the Fine Schedule, or notice of a subsequent hearing on the same violation to be held no sooner than thirty (30) days from the original hearing date, unless the violation is sooner remedied.

G. Fines imposed by the Mutual Board after a hearing shall be due immediately upon notice of the hearing decision to the Owner. Special Assessments levied by the Mutual Board shall be due thirty (30) days from the date of the notice of hearing decision, or upon such other later date specified therein not to exceed sixty (60) days from the date of the notice.

15.1.3 Fine Schedule. The schedule of monetary penalties which the Mutual Board may impose for general violations in accordance with the above procedures is attached to these Rules as Exhibit "B". The Mutual Board reserves the right to revise the Fine Schedule at any time through a rule change procedure and the most recent Fine Schedule shall be distributed to the Shareholders on an annual basis. Fines for parking violations are not included in Exhibit "B" but, rather, are set forth below in Section 15.2 of these Rules.

Section 15.2 – Parking Violations.

Any Shareholder or Qualifying Resident charged with the violation (Violator) can pay the fine or the Violator has the right to contest the "rules violation" in writing to the Parking Rules Violations ("PRV") panel within ten (10) business days of the date of the violation. If Shareholder provides written notice that he/she is contesting the violation, a hearing will be scheduled by the PRV of the Mutual. Violator may submit a response in writing within ten (10) business days of the

violation to the PRV, if they are unable to attend the hearing. Shareholders will be notified in writing of the results of the hearing within fifteen (15) business days. Except that contractors will be adjudicated by the Facilities Director, Health Care Center (“HCC”) employees will be adjudicated by HCC management and GRF employees will be adjudicated by GRF Human Resources Department.

15.2.1 The written Rules Violation Notice (“Citation”) serves as written notice of the violation and hearing (Civ. Code Section 5855). The following items will be set forth in the written Citation: (1) Description of violation, including time of violation and location and possible penalties (including possible monetary penalties); and (2) Hearing date, time, and location of Hearing.

15.2.2 The Notice Handout supplements the Citation and must contain the following: (1) The date, time, and place of the hearing; (2) The nature of the alleged violation (including the date/time and location) for which a Shareholder may be disciplined; (3) A statement that the Shareholder has a right to attend the hearing and present evidence (Civ. Code Section 5855(b)); (4) Notification that a failure to respond will acknowledge acceptance of the violation and the corresponding fine may be imposed; and (5) A section to indicate the need for an interpreter and the language requested. The PRV must be notified at least ten (10) business days prior to the hearing if the Shareholder will bring an interpreter.

15.2.3 A Shareholder may request one extension of the panel hearing under these following circumstances: (1) An extension of Hearing date at least forty-eight (48) hours prior to the scheduled PRV hearing with no explanation; (2) An extension for medical, health or family issues; (3) The written notification to the PRV panel that the Violator is bringing a lawyer. This will require a minimum 30-day extension to ensure Mutual attorney will be present; or (4) A second extension may be granted by the PRV.

15.2.4 The Shareholder has the right to examine and refute evidence. The photos may be viewed in the Security Office by appointment. The Security Department will have a representative present to explain all relevant information and evidence. This may include questions during the hearing. Shareholders also have the right to submit their defense in writing rather than make an appearance before the PRV. The Shareholder may bring an Observer or interpreter. The PRV panel hearing is a closed meeting. Hearings will be held in executive session. The Shareholder may request an open hearing. If the Shareholder does not appear at the scheduled hearing without prior notification to the PRV panel, this will be accepted as agreement by the Shareholder of the validity of the violation and the appropriate fine may be assessed.

15.2.5 The PRV panel shall make “findings” to support the panel’s decision regarding the alleged violation. Findings may allow for vacating the citation. Notice of the panel’s decision must be given by first-class mail within fifteen (15) business days following the PRV’s decision. The letter of decision shall include the PRV panel’s findings.

15.2.6 All violations of the Parking Rules as set forth in Article IV of these Rules and Regulations, may be assessed a monetary penalty in the following amounts:

- (1) First Offense. The first offense may result in either a Fix-It citation, a Warning, a Fine or the vehicle being towed. See table below. A Fix-It citation provides the Qualifying Resident with thirty (30) days to correct the issue set forth in the Fix-It citation. The fine *may* be waived by the PRV panel.
- (2) Additional citations may be issued after each 24-hour period.
- (3) After the fourth RV or VUFR violation all RV or VUFR parking privileges are suspended for twelve (12) months beginning with the date of the fourth infraction.

Upon receipt of a written request from a Shareholder identifying a secondary address, the Mutual shall send notices to that secondary address.

Section 16.13 – No Right of Offset.
